		Blackprints were produced initially to help check the plates before printing. A few from 1915-17 are included in this sale. From 1946 ("Stephansdom") the State Printing House started producing A4 sheets with details of the stamps and a commentary. "The Good & The Great" who received them leaked these to enthusiastic philatelists and production increased, to include humble editors of philatelic journals, including from December 1949 the Austrian Stamp Club of GB! It has been decided that these should be offered to the Members and this is a taster!

		DOCUMENTS NEWSPAPERS & EPHEMERA - REVENUES & SOCIAL HISTORY	
500	1831	Folder of documents (around 60), 1831-1900 . None are postal. Almost all are part-printed (at least the heading). Some aren't too difficult to read, all are in German and it appears they are all Austrian. A bit of duplication, condition mostly reasonable. A few have handstamps, including from Parish priests. The location of some can be deciphered, all but one are apparently dated. A good batch to brush up your C.19th German handwriting!	£16
