

# Lot 69 Emergency banknotes ("Notgeld").

1920s **Emergency banknotes ("Notgeld")**. Issued for use as small change after hyper-inflation had reduced coin values to below "melt-down" value. Many Austrian towns, large and small, had permission to issue banknotes to be redeemed at the end of 1920. An impressive collection of 567 notes from 182 localities. Interesting and colourful designs. (567)
