Orphans and waifs

This section is books which nobody wanted in Auction 149, nor did RPSL, nor did Philabooks. Hence the reserves of one pound on all lots but the last few. As always, if bids conflict, the earlier takes precedence. In descriptions, entries like “#123” are the APS Library number for an item that came from it. **W** followed by a number is the weight in grams before packing. All books etc are in German unless otherwise specified. There are no scans of books on the web site.
